November 21, 2009, 10:00

Brandywine Town Center

Fred Knobloch on "What I Do to My Trees that You Probably Don't Do to Yours"

Pre-Meeting tree counseling: Pat Morris

Cookie Person: Brad Taylor

The November Meeting

Fred is one of our most experienced members; his trees – numerous—always elicit praise from visitors to our exhibits. He is going to share some of his winter storage practices, and much, much more.

This is our last meeting of 2009. One order of business is to elect officers. The current slate of officers has agreed to stand again, but nominations from the floor are welcome. Or, should you wish to register a nomination in advance of the meeting, please contact Charlotte Smith who will preside over nominations and elections.

Scheduling pressures mean that the 2010 program agenda has been fairly much arranged; however, requests and suggestions are always welcome, and will be acted on as it is possible to do so.

After another year of meeting and exhibit experience, questions have arisen that the membership needs to address. Please attend and share your thoughts.

Finally, if time remains, we can work on trees together – the last throes before they bed down for a long winter's nap.

Longwood Show comments from Pat

For all who participated in the 2009 Bonsai and Suiseki show at Longwood Gardens: A Great Big THANK YOU!!

And a special Thank You for those who came out to help even though they did not have a tree in this show.

If you have any comments or suggestions regarding this show -- or any others -- please bring them to our November 21st meeting. If you cannot make it to the November meeting, please pass on your

comments to Pat <PLMshomei@verizon.net>

Nancy <Nancy.Klabunde@comcast.net> or Dennis

<Bonsaiguy@comcast.net>. We need your input.

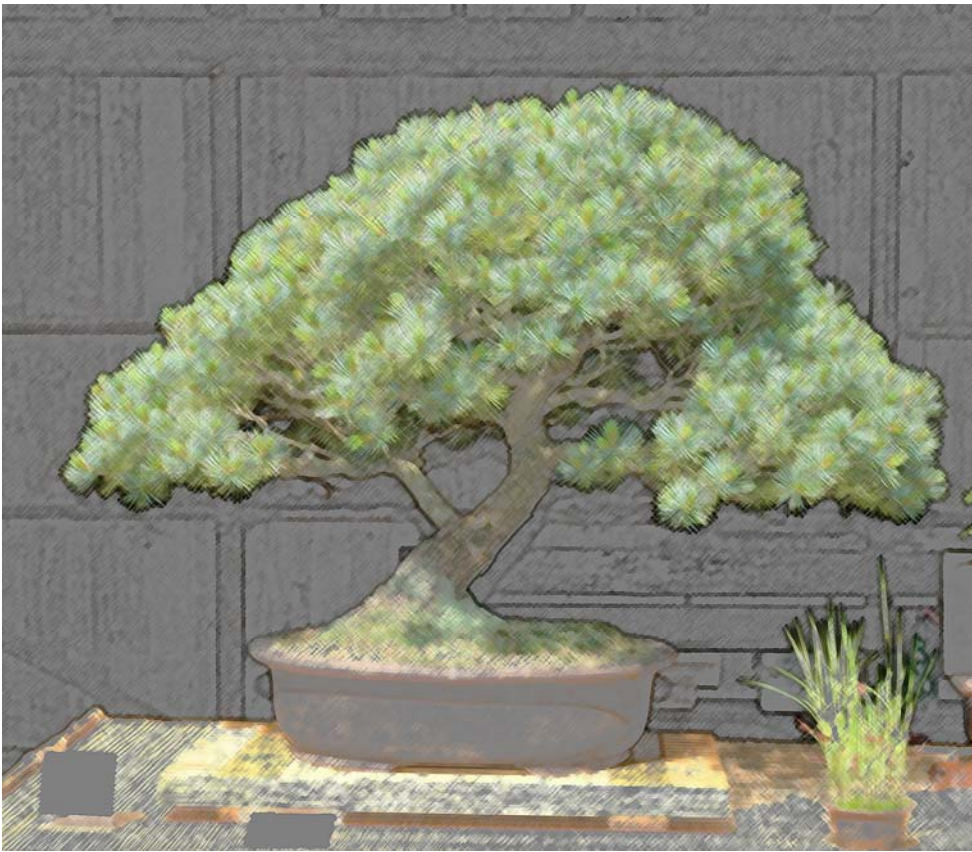

After all, it is your show!

Longwood Show comments from Steve

Thanks go out to Pat Morris, Exhibits Chair, for making the Longwood show a great success.

Pat gave unstintingly of her time and effort during the entire weekend. Going back to our old location showed the trees to better advantage and the proximity of the viewing stones was very complementary. Thanks to all the members who gave their time and effort exhibiting and babysitting. Pictures from the show will be in a later newsletter.

My impressions of trees
